

### Candidate Important Bird Area (IBA) Locations, Spring 2013

The locations listed below were compiled by the IBA Technical Committee as areas that might have the potential to meet IBA criteria. In many cases, the areas are not well defined, and public access may be limited or non-existent. Anyone interested in collecting bird data on these sites should check with landowners before accessing private property.

For questions about locations, call Susan Gallo, 207-781-6180 ext. 216.

For more information about the IBA nomination process, visit [maineaudubon.org/iba](http://maineaudubon.org/iba).
